

PENDOCK

Time/Cost Comparison Pendock vs Site Made

Essential pipework is inherently ugly which is why we tend to cover it. But so often we spend hours fabricating ill-fitting boxing, that then needs sanding, painting and invariably looks bulky and messy.

Pendock Profiles can be fitted in minutes, yet requires no further finishing or decorating.

The below diagrams demonstrate the ease and speed of fit that will be achieved using Pendock against more traditional methods and will give the contractor a saving of approximately 30%.

Cost Comparison

The above example has been costed, using actual costs by site contractors when completing site made boxing and there actual timings.

Based upon labour rate of £15.00 per hour and a decoration allowance of £2.20 per meter to allow for an undercoat and finishing coat.

Site Made Boxing

Material (ply/mdf) cost per meter £4.09

Installation time of 50 mins = £12.00 per meter

Decoration cost of £2.20 per meter.

Total = £18.29 per meter.

Pendock Profiles

Material (TK 45/150) cost per meter £5.40

Batten fixing per meter £0.63

Installation time of 9 minutes = £2.25

Decoration cost £0.00

Total = £8.28

Total Saving

£10.01
